During the previous reports (1st periodic, & 2nd Annual Report) and the Deliverables of WP5 have been reported a number of Seminars organized in the framework of SEEDRUG activities. These seminars were about Xray crystal structure determination and a number of world-class established scientists were invited. Among these, were Prof Bill Davis (UK), Prof. Carmelo Gicovazzo (IT) and Robert Von Dreele, who all visited UPA the period July-September 2013.
