

3rd EAB meeting

Written by Administrator

Tuesday, 01 December 2015 13:32 -

Due to the duties of the EAB members, individual meetings between the SEEDRUG members and the EAB members took place during the last year of the project.

However, the project coordinator and other members of the SEEDRUG consortium had periodic meetings with EAB members (Prof. C. Luchinat, Prof. V. Episkopou and Dr. A. Perrakis) discussing the progress of the project and setting up new collaborative efforts (exchange/transfer of knowledge, research projects and scientific results, proposal submission, organization of new EU networks for future grant applications etc.).
